JUJJURI BHAVANI

Email: **jujjuribhavani@gmail.com**   **Contact No.**: **8951205598**

CARRER OBJECTIVE:

To learn and achieve the optimum output in the assigned task with atmost respect to the organizational values, and acquire new skill set in the process and share what I embody.

EXECUTIVE SUMMARY:

- 2+ years of software development experience in IT industry
- Good understanding of the Complete Software Development Life Cycle
- Hands on Experience in **Core java, Jsp, Struts.**
- Involved in Development, Testing and Deployment of applications
- Good analytical skills, commitment to co-operative teamwork and developing high quality software meeting requirements of the customer
- Willing to learn new technologies and ready to take challenges.

WORK EXPERIENCE:

- Worked as a **Senior Software Engineer** for **iGate Global Solutions LTD.** from Feb 2012 to Aug 2015
- Resigned due to the family health issues.
- Re-Learning the skills since 2022.

TECHNICAL SUMMARY:

- Operation System   :   Windows
- Java Technologies   :   Core-Java, JDBC, JSP & Struts.
- Other Technologies   :   Java Script, HTML, AJAX
- IDE's & Tools   :   Eclipse , Visual code
- Tools   :   ANT, SVN
- Application Servers   :   JBoss
- Database / RDBMS   :   Oracle
- Database Tools   :   SQL Developer

EDUCATIONAL QUALIFICATION:

- B.Tech (IT)(2011) from Bapatla Engineering College with **70.4%** aggregate.

PROFESSIONAL EXPERIENCE:

Project # 1   :   **Promotion Management system (Prom)**

Duration   :   Jan 2013 to Jan 2015
Role   :   Developer
Tools and technology used   :   Java, J2EE, EJB, SONAR architecture, Oracle
Sever/IDE   :   JBoss /Eclipse

Description:
      Promo Manager (ProM) is a web based work flow application used to manage information and integrate the different processes used to produce on-air promo related artifacts (credit windows, snipes etc). ProM provides a centralized repository for promo related information, resulting in a more streamlined and efficient promo production process. ProM is not only used to manage the promo production process but is also used by NBC.com as a workflow system to track online content requests.
      Currently there are 4 networks using Prom Application which have different usability
The 5 modules used by NBC, NBC.com and Bravo are:
- ➤ **Graphics (Users: NBC Graphics and Bravo)** – Used by Admins/Producers to submit and assign graphics requests to designers. Since the launch of the NBC Graphics module in December 2009, a total of 1,175 requests have been submitted and closed!
- ➤ **Library (Users: Bravo and NBC Agency)** – The Library is a repository of all project and show/episode related tapes
- ➤ **Scheduling (Users: NBC Agency)** – The production schedule known as the Ship List is maintained in this module. Work orders are created, and approved by the Administrator. In 2009 and 2010, a total of 10,365 work orders were created and fulfilled!
- ➤ **Credits (Users: NBC 2000)** - The credits module is used in the same way the Scheduling module but instead of promos, NBC 2000 produce snipes and end credits.
- ➤ **DUB Request (Users : Bravo)** – Dub Request Module is used to create DUB's for the Schedules from the scdule module.

Responsibilities:

- ➤ **Enhancing the project to involve New Network(Esquire) with the Network specific requirements**
- ➤ Web based solution which totally facilitates creation and scheduling of the promos.
- ➤ Configurable roles for managing the access levels of different users and networks for the creation and scheduling of the promos.
- ➤ Provided a solution to different promo department to easily and accurately capture all graphic elements
- ➤ Auto create of the work orders for the Promo scheduled in various other systems
- ➤ Implemented a solution to generate various scheduling reports
- ➤ Managing / Adding the Business Units / Networks

Project # 2   : **Pilot Screening System**

Duration   : Aug 2012 to May 2013
Role   : Developer
Tools and technology used   : Java, JDBC, JSP, EJB, Struts, JBoss, Oracle and Eclipse
Description:

Pilot Screening System (PSS) is mainly used for voting the screens (some part of the shows/Pilots).Show/Pilot is made in the SHOW TRACKER application with some mandatory fields (i.e., Show tracker feeds the PSS). In this application we have two roles at present(admin, participant). Admin will make the schedules for screens, and will make the survey for the voting. Participant will vote and provide their comments on the screen they have viewed. Admin will take care of all the reports that are generated by the application.

PSS is also mainly used for getting the reports of the voting process done.

Modules:
- Admin
  - Data
  - Schedule
  - Pilot list
  - Participant List
  - Group Assignment
  - Survey Design
  - Administration
- Participant

Responsibilities:

- Involved in Maintenance of Admin and Participant
- Involved in developing front end for voting and Reports using JSPs and HTML.
- Involved in validations using JavaScript.
- Analyzing Use case Documents and Detail Requirement Specification document.
- Understanding the user Requirements
- Developing Java applications using and deployed in JBoss Application server.
- Developed the Action classes, Action Form classes and configured the Struts-config.xml file

Project # 3   **: Employee Management System**

Duration   **:** June 2012 to July 2012
Role   : Developer
Tools and technology used   : Core Java, J2EE , MVC, Jdbc, Servlets, Jsp, Oracle, Eclipse & JBoss

Description:
Employee Management System is mainly used for adding, updating, view of the employee details of the organization and search of the employees according to the given criteria.

I have developed the search criteria module in which we can search the employee by giving some search criteria and can export the search to an excel file. We can do the wild character search and if we don't give any criteria then it will display all the employees in the organization. To avoid the mass display we have used pagination which will display only 10 results per page and will provide links for the other results.

We can view the employee details by clicking the corresponding employee Id in the result displayed.

Modules:
- Adding an Employee
- Modifying an Employee
- View Employee
- Search Employees
- Login

Responsibilities:

- Writing JSP's for Presentation Layer.

- ➢ Involved in validations using java script
- ➢ Used Jdbc to interact with database.
- ➢ Involved in **devoleping** the search module

Project # 4   **: Loan Application System**

Duration   : March 2012 to May 2012
Role   : Developer
Tools and technology used   : Core Java, J2EE , MVC, Jdbc, Servlets, Jsp, Oracle, Eclipse & JBoss

Description:
        Application is Loan Application System, it is mainly used for Appliying and Approving the Loan.
        In this application we have three roles, Loan Approval Department(LAD) Member, Admin, Customer. LAD and admin have the login permission, customer has no need to login for applying.
        Customer can directly apply the loan by viewing the loans available using the application, and they can get the further information from the Application Id generated for the loan they have applied which they will get after the applying the loan.
        LAD can Accept the loan which the customer has Applied and will sets the date for an interview with the customer, after the interview LAD can Approve the loan / Reject the loan. So the loan Applied can only be in four states Applied, Accepted, Approved / Rejected.
        Admin can add, update, view and delete the loan programs which are proposed by the corresponding loan authorities.

Modules:
- ➢ Admin
  - o Add Loan Program
  - o Delete Loan Program
  - o Update Loan Program
  - o View Loa006E Program
- ➢ LAD
  - o View loan Applied
  - o Accept/Approve/Reject Loans Applied
- ➢ Customer
  - o View Loan Program
  - o Apply for Loan

Responsibilities:

- ➢ Involved in Developing the Customer and some part of LAD
- ➢ Involved in validations for the Jsp pages, especially date validations
- ➢ Used Jdbc to interact with database.

PERSONAL DETAILS:

Name	:	JUJJURI BHAVANI
Date of Birth	:	14-05-1990
Alternative email	:	Jujjuri.bhavani@igate.com
Nationality	:	Indian
Languages Known	:	Telugu, Hindi, Tamil and English
Present Address	:	Sabari Nagar, Chennai
Phone Number	:	+91- 8438264609

DECLARATION:

I hereby declare that all information mentioned above is true to the best of my knowledge.
